MIX

SERIES

Office is over?

With technological development, people now can work almost everywhere.

However, office, as a hub for meeting and idea-sharing, still plays a very important role in our working life.

Rather than being abandoned, office is actually evolving together with the new era.

Mix series, with its modular design, is easy to assemble and disassemble.

Suitable for all kinds of office space, it is highly compatible with all kinds of products, and is of infinite possibilities.

Flexible Boundary, Unlimited Communication

Designed with large desktop

Mix, when matched with different screens, could flexibly change the “boundary” between colleagues to meet different needs in different situations.

Flexible Boundary, Unlimited Communication

Designed with large desktop,
Mix, when matched with different screens,
could flexibly change the “boundary” between
colleagues to meet different needs in different situations.

Cross Profile of the Steel Leg (the shell is 1.8mm thick)

The steel legs are 15°-inclined to offer more space for knees.
The white powder-coated finish
endows them with a smooth and fine touch.

Inclusive & Vigorous

Office environment nowadays is constantly changing towards the direction of being more open and more flexible.
Mix series, with an inclusive attitude, encourages heated discussions and collision of ideas.

Available in 3 leg types, square, gate-shaped, and inclined, Mix could be matched with different products and spaces at will. 45°-inclined, the legs are made of steel tubes with V-shaped cuts for bending. Being spot-welded and polished, the legs are more harmonious in look and more complete in shape.

Coated with white fine powder, the legs are mellow in texture, and the concise lines emphasize their modernity and trendiness.

Well-placed, Fully-used

Ever-increasing attention is now paid to the use ratio of space because of the high rent of office buildings. Mix offers various kinds of office solutions. Even in narrow spaces against walls, Mix can also make full use of every inch by connecting the desks.

Multiple Choices to Inspire Teamwork

Movable cabinet with double-drawer for two people: No need to distinguish the left or right side, and the unlocking can be made from both sides without interrupting each other.

Cross-shaped workstation keeps its eye on the utilization ratio of desktop as well as the demand for interactivity and sharing, making it possible for employees to switch freely between independent work and teamwork.

Inclined desk leg, with its smooth and elegant lines as well as free modular combination, provides you with multiple and flexible space solutions.

Square-shaped desk leg endows you with ample legroom.

Door-shaped desk leg paired with shared movable cabinet helps efficiently utilize space and caters to various changes of space.

Aluminum Frame Screen

The desktop is one-piece made for people to share. Acoustic fabric decreases ambient noise, glass-splice screens prevent droplet and keep a good sight, magnetic screen for easy display of, notes and screens with hang slots create vertical storage and make better use of the tabletop.

POWER-USING

The desktop is one-piece made for people to share. Acoustic fabric decreases ambient noise, glass-splice screens prevent droplet and keep a good sight, magnetic screen for easy display of, notes and screens with hang slots create vertical storage and make better use of the tabletop.

The free-standing wiring box and the underdesk wiring trunk centralize and conceal wires and cables to maintain a neat and clear look. Strong and weak electricity are separated to ensure safety.

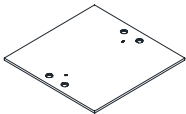

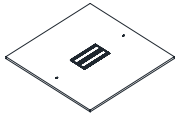

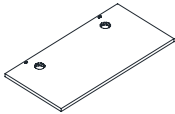

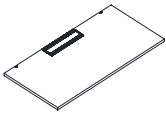

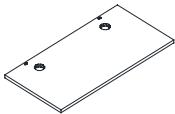

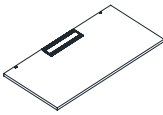

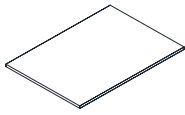

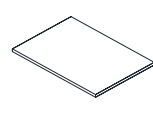

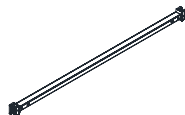

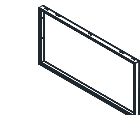

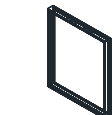

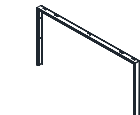

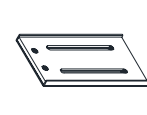

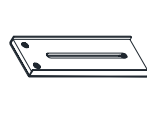

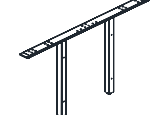

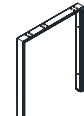

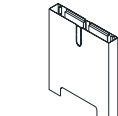

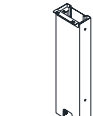

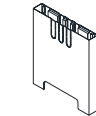

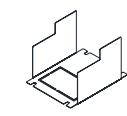

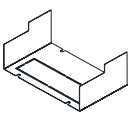

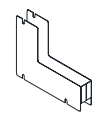

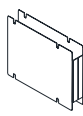

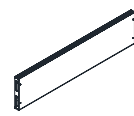

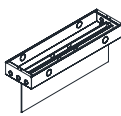

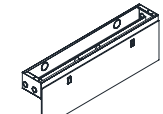

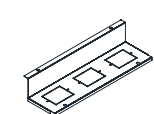

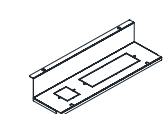

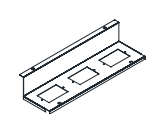

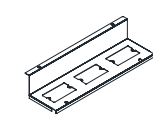

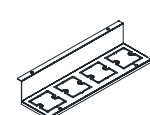

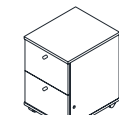

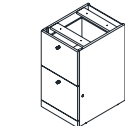

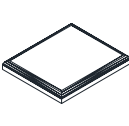

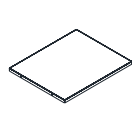

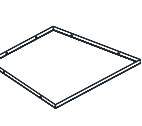

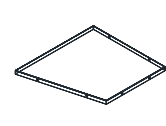

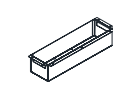

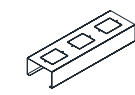

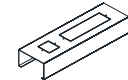

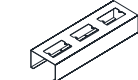

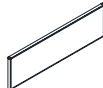

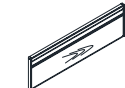

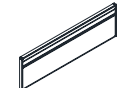

Contemporary minimalist style steel frame adds a touch of design

The lower frame of the lift desk uses cold-rolled steel, which is stable and durable. It is available in three colors: Matte White, Matte Black, Meteor Grey. Elegant colors together with lifting dynamics inject a slew of vibrancy to your space.
